

iReCall CLOUD ARCHIVING

If you are already an iReCall client, you can benefit from our Cloud archiving option. Cloud archiving includes cost effective long term storage with seamless access to offsite backups through your Supervisor interface. No additional software required.

As part of your iReCall monthly fee, we store your data for 5 years.

After 5 years we offer our iReCall Cloud Archiving at an additional cost.

Benefits of Cloud Archiving:

- The risk to lose storage or a hard drive is minimal. It gives you peace of mind.
- It is more cost-effective than storing and maintaining data in-house.
- Offsite backup of archives.
- Seamless access via Supervisor interface.
- It reduces the need for buying or upgrading hardware to store data.
- 5 year storage included as standard – Options to extend.
- Cloud archiving requires no special on-premises hardware.
- Datatex manages the backups of your archiving.
- Archiving Dashboard – The dashboard shows all necessary system related information e.g. disc space and if the archives were successful.
- Easy activation.

Requirements:

For any further information on Cloud archiving please contact us at 021 592 4033 or at sales@datatex.co.za
